DRIVE²

A HISTORY OF MOVING DREAMS FORWARD

1975	1979	1985	1989	1990	1994	1996	2000	2001	2003	2005	2006	2009	2010	2012	2015	2016
YG-292 MODEL GOLF CAR Yamaha's first golf car. This powerful unit was compact and lightweight, and served as the bedrock for more things to come.	G-1 MODEL GOLF CAR The first 2-stroke powered golf car to have a standard oil injection system with solid-state electronic ignition.	G-2 MODEL GOLF CAR The first golf car to feature a 4-stroke, overhead valve engine and an injection molded, plastic front and rear body. G-3 MODEL (SUN CLASSIC) GOLF CAR The original "Neighborhood Vehicle" came standard with deluxe bucket seats, headlights, taillights, turn signals, tempered glass windshield, locking glove box, and large front storage compartment.	G-5 MODEL (SUN CLASSIC) GOLF CAR The next generation "Sun Classic" featured improvements like lightweight, Metton® resin body panels, rack & pinion steering system, rear view mirror, and sun top integrated air vents. G-8 MODEL (FLEET CLASSIC) GOLF CAR The first car to utilize semi-independent rear suspension that included coil over shocks.	G-9 MODEL (FLEET MASTER) GOLF CAR The G-9 was designed to be a value-conscious fleet alternative to the G-8 model.	G-14 MODEL (ULTIMA) GOLF CAR A larger, 300cc engine, and longer, wider stance than earlier models made the G-14 the ultimate golf car. The first to have a 360° body protection system and blow-molded 5mph impact-resistant bumpers.	G-11 MODEL (YAMAHAULER) UTILITY VEHICLE The next generation G-11 featured a larger 301cc engine and impact-resistant front bumper. G-16 MODEL (ULTIMA) GOLF CAR The next generation Ultima model with a larger 301cc engine, re-designed primary clutch and four color options. G-19 MODEL (ULTIMA) GOLF CAR Our first 48 volt electric golf car featured innovative roll-away safety protection and regenerative braking.	G-20 MODEL (CONCIERGE) MULTI-PASSENGER VEHICLE The first production line built 4-passenger vehicle to offer comfort and style. Equipped with standard 4-wheel brakes.	G-21 MODEL UTILITY VEHICLE G-21 featured 4-wheel brakes and a larger engine than its predecessor.	G-22 MODEL (G-MAX) GOLF CAR Designed for maximum comfort, performance and reliability. Newly designed brake pedals, parking brakes, Ergo-shade sun tops, and Tru-Trak rack & pinion steering came standard. The 4-stroke model featured a powerful 357cc motor, and the 48 volt electric featured the Advanced Genius System.	G-23 MODEL (U-MAX MEDIUM DUTY I) UTILITY VEHICLE G-27 MODEL (U-MAX LIGHT DUTY I) UTILITY VEHICLE G-28 MODEL (U-MAX MEDIUM DUTY II) UTILITY VEHICLE These 3 new utility vehicles were part car, part truck... all Yamaha. Roto-molded polyethylene dump beds and head and taillights came standard. Additionally, the G-23 featured a 12 volt DC outlet; the G-23 and G-27 were available in gas and electric, and the G-27 and G-28 featured lifted suspension.	YDR (THE DRIVE®) GOLF CAR The DRIVE embodied Yamaha reliability and featured several industry firsts – internal wet-brake transaxle, automotive-style dash, and an ATV inspired clutch for better response and hill climbing ability.	YTF1 (ADVENTURER ONE) UTILITY VEHICLE The YTF1 was created to be tough, durable, and have minimal maintenance costs.	YTF2 (ADVENTURER TWO) UTILITY VEHICLE Created with heavy-duty suspension, a large roto-molded dump bed with folding tailgate, headlights, taillights, horn and 2" hitch receiver, this vehicle was developed to work hard while minimizing driver fatigue.	YDR (THE DRIVE®) Yamaha introduced the first golf car to feature Electronic Fuel Injection that provided a more precise air to fuel ratio for more responsive acceleration, improved gas mileage, reduced emissions, and better high altitude performance.	YAMATRACK Yamaha introduced its comprehensive cloud based GPS solution, allowing users to manage entire fleet operations remotely.	THE DRIVE² The Drive ² lineup brought forward all the best features from The Drive but also introduced QuieTech EFI – a gas car that's almost as quiet as an electric. Additionally, QuieTech EFI included the first Independent Rear Suspension ever to be found on a golf car.

LARGER SWEATER BASKET

Most storage and designed for easy cleaning.

QUIET, SMOOTH RIDE

A gas car that is ALMOST AS QUIET as an ELECTRIC

The new QuieTech EFI boasts the lowest decibel output of any gas car and features the industry's first-ever Independent Rear Suspension on a golf car. This unprecedented combination ensures your players experience a luxuriously quiet ride. At 45 MPG and less hydrocarbon emissions than the competition, we think you'll agree that choosing QuieTech EFI is the most sound business decision you could make for your golf course.

QUIETECH EFI
COMBINES THE
QUIETNESS OF
ELECTRIC WITH THE

Independent Laboratory Testing 8 Volt Batteries

Yamaha is the only
golf car manufacturer
that uses industry-best
Trojan T-875 batteries
as standard equipment.

* Based on the averaging of two completed separate tests on two batteries for each brand.

Low cost of OWNERSHIP AND *proven* DEPENDABILITY

Love the ROI of gas but don't need the quiet ride of Quietech EFI? Then our Drive² Carb car will fit the bill. Our Yamaha-built engine brings you over 60 years of proven performance featuring a filterless oil system for ease of maintenance. At 357cc's, producing 11.4 horsepower, it's the most fuel efficient carbureted engine in the industry with all the great features built into the Drive² line of cars. Now you don't have to choose between luxury and value.

More fuel efficiency for better value. The Drive² Carb car has comparable fuel efficiency when compared to our competitor's EFI model.*

Lower your maintenance cost
and damage repairs with
Yamaha's industry exclusive
removable modular body panels.

A reliable,
EFFICIENT, SUPERIOR
electric CAR

Love the ride of PowerTech AC but don't need all the power? Then our Drive² DC car is for you. When your customers demand electric, give them a dependable car that has all the features that today's modern golfers demand. Now with a smaller, quieter, and more efficient electric charger that uses less power out of the wall, the Yamaha Drive² DC saves you more money than ever.

Yamaha is the only golf car manufacturer that uses industry-best Trojan T-875 batteries as standard equipment.

Redesigned cradle smooth suspension system for maximum comfort. Featured on all Drive² Carb, PowerTech AC, and Drive² DC models.

YAMAHA IS THE EASY CHOICE

Now let's get down to business.

- 1. Do you want a car that lasts the full life of the lease?
- 2. Does your fleet need more hill-climbing ability?
- 3. Is total cost of ownership important to you?
- 4. How important is battery quality to you?
- 5. Do you desire a higher resale value on your fleet investment?

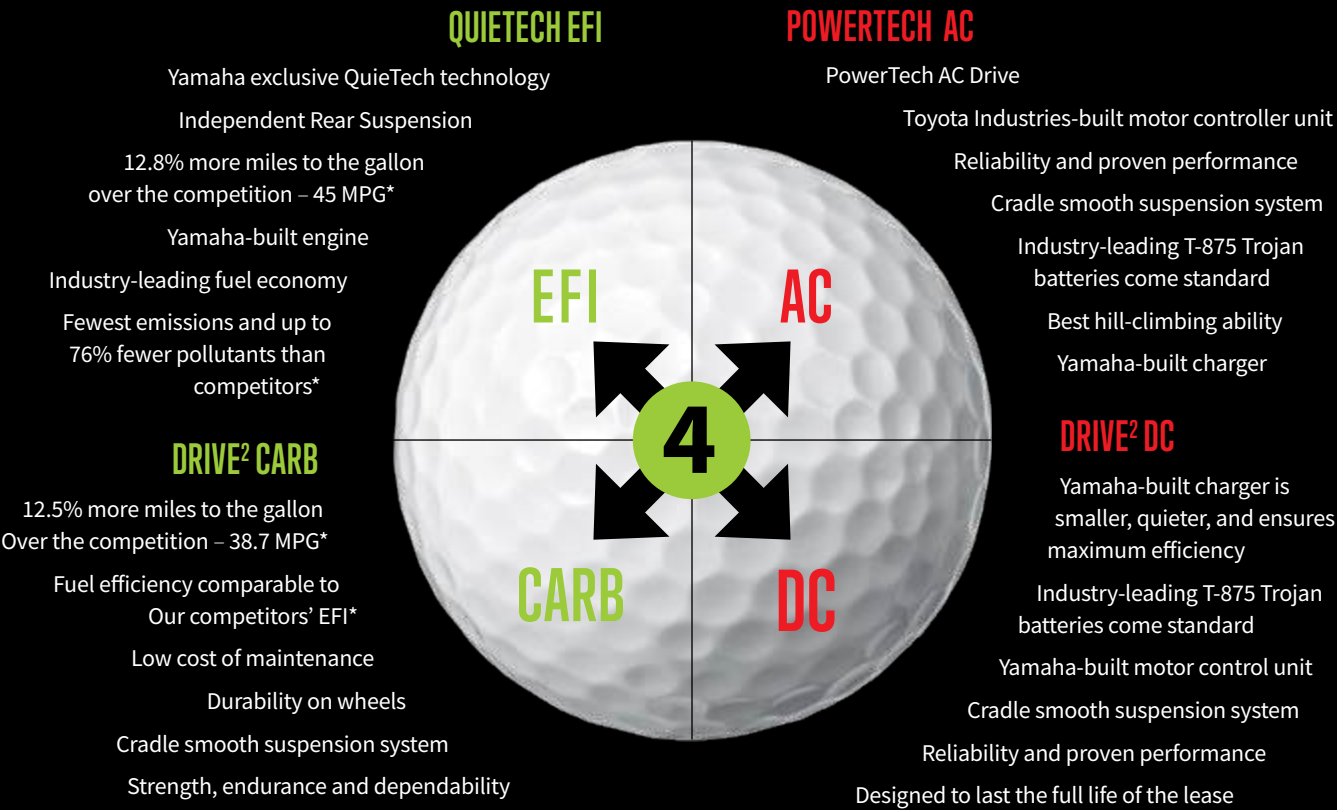

Whatever the question, Yamaha is the answer.

GAS

Value, reliability and smooth ride.

ELECTRIC

Smooth acceleration with unrivaled luxury.

Affordable COURSE MANAGEMENT

We offer the industry's leading golf cars and have developed a product to save your course money.

YamaTrack offers so much more than just security and GPS – it's a comprehensive system that allows you to set up geofences to protect eco-sensitive areas, manage your entire operation including the pro shop, cart barn, and maintenance equipment.

CAR CONTROL

- Set geofence zones to control speed and car location on your course.
- Use the Shutdown feature to prevent losses by day, and the Lock down feature for better overnight security.
- Monitor amp hours and car battery conditions automatically to improve fleet rotation and maximize battery life.
- Monitor pace of play to assist with scheduling rounds and optimize marshal activity.
- Use the car tracking feature to show a car's current location or history.
- Control car speed for DC models.

PLAYERS' APP

If you have a Yamaha fleet, then we've already built your mobile app for you. Activating the app for your course is easy and convenient, and the mobile-based software allows your players to navigate their round no matter where they are on the course or in the game. The YamaTrack Players' App assures player support is just around the corner, so they can spend more energy on their game.

Customize your course's mobile players' app with your logo.

Accurate course diagrams and the GPS Precise Distance to Pin feature enables players to gauge their shots, for more holes-in-one than ever before.

Food and beverage ordering from the course means a satisfying meal or refreshing beverage is never far away.

And just to make it as easy as possible to begin enjoying all the perks, we offer simple leasing with Yamaha's in-house financing.

BACK OFFICE

- Reach your audience with customizable on screen advertising. Increase course revenue by sharing advertising opportunities.
- Manage your entire operation including the pro shop, cart barn, and maintenance equipment from any internet-connected device with our web-based system.
- Integrated leasing with Yamaha's in-house financing available, which enables a seamless transaction.
- Generate multiple reports to better manage and maintain your fleet.

CUSTOMIZED ACCESSORIES

USB Charging Ports

Two ports to maintain power and stay charged. Built right into the dash.

Clip-on Information Holder

Holder allows snap-lock insertion and push-button removal of the information card. Features a UV protected, polycarbonate card holder for durability and strength.

Self-adhesive Information Holder

Holder keeps pairing sheet, clubhouse menu, or course advertisements dry and in plain view.

Club Cover

Our weather-resistant, marine-grade, 600D polyester golf car cover installs quickly, easily, and requires no modification to ClimaGuard™ Suntop.

Cooler

This blow-molded, easily removable cooler with double wall construction mounts easily on either side of car. Fits six 12 oz. bottles with ice.

Golf Club/Ball Washer

Easily installed, this high quality Club and Ball Washer can be mounted on the right or left side of car alongside sand bottle.

Sand Bottle

Our high quality Sand Bottle is available with or without a handle and can be mounted on either side of car.

Dual Sand Bottles

Our high quality Dual Sand Bottles are available with or without a handle and can be mounted on either side of car.

Sand Bucket

This high quality Sand Bucket with hinged lid and scoop can be mounted on either side of car.

Tow System

On-board Tow System includes a tow bar mounted on the rear of the car that can be connected, as needed, to the front pivot assembly of another car.

Optional Black Seat

Widest, most comfortable seat, contoured for the most ergonomic ride.

Optional Black Top

Protection from the elements. ClimaGuard™ top with dual gutters is 33% larger than the nearest competitor.

Polycarbonate Split Windshield (clear or tinted)

Clear Split Windshield

With a contoured bottom designed to hug the front of the vehicle and seal out the elements, this polycarbonate windshield has a flexible hinge that allows the windshield to smoothly fold and lock in place.

Tinted Split Windshield

Fleet Numbers

Easy-to-read, UV-resistant, black numbers against gold background. Sold individually or as sets of 10. Numbered sequentially.

Custom Club Logos

Custom branding for your fleet. We place your club logo decal on the golf car hood and incorporate it into the fleet number.

Chrome Kick Plate

Includes a sleek, modern, easy to care for kickplate to protect your interior.

Millennia MA100 Speaker/Amp Package

This Bluetooth® audio kit has no external buttons or lights, giving your golf car a clean look. Includes two speakers and all wiring.

Wheels

Center stamped with our signature Tuning Fork mark, these mag style wheel covers are the perfect complement to your fleet. Fits all Yamaha models with 8-inch wheels.
